REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The rejection over EP'874 and EP'968 is withdrawn in view of the English translation of the priority document.

Claims 1 and 25 are allowed over the prior art of record because none of the prior art discloses or suggests a film or an optical security element having the features "the film or element comprising a replication layer and a release layer, wherein a diffractive structure is embossed into the surface of the replication layer, which is towards the layer of a liquid crystal material, for orientation of the liquid crystal material, said diffractive structure having at least two partial regions with different directions of orientation of the embossed (diffractive) structure and liquid crystal molecules of the layer of the liquid crystal material are oriented in accordance with the diffractive structure".

Claims 2-24, 26 and 27 are also allowed since they depend on claims 1 and 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

A copy of the priority document has been received in this application.
